Subject: Help from You to Clean Up Our Community

Councilperson Monica Rodriguez,
Councilperson Monica Rodriguez,

Please see photos attached of our neighborhood streets of the 10800 through 10200 blocks of Glenoaks Blvd., as well as the 12300 block of Osborne Street in our community of Pacoima. Those street blocks are filled daily/weekly with piles of all kinds of illegally dumped items and piles of dirt. There has been a drastic increase in the number of homeless people living in our community. Why? What is being done to help the homeless get off the streets in our community? They are currently and haven been parked and living in their large recreational vehicles, cars and trailers on those blocks of the streets named above. Most of them have parked their vehicles going on a month and longer on those blocks. Why are the LAPD/LA CITY Parking Enforcement allowing them to violate LA City Parking Laws by parking FAR more than 72 hours on those blocks? We also have an increased number of commercial big rig trucks that park for days and overnight along those blocks of Glenoaks Blvd. Why? Why are they allowed to use our residential streets as a parking lot for their Commercial Trucks? The big rig truck drivers also dump unwanted trash on the sidewalks and in the streets! Why is this allowed being allowed?

They are littering up our streets with lots of unsanitary loose trash and bulky items illegally dumped such as mattresses, couches, tables and chairs, auto parts, bags and boxes of trash, and more.. This situation is unsanitary, unhealthy and dangerous for residents in our community. We have seen people urinating, as well as depositing bodily waste on our sidewalks (in containers) and in dirt areas along private and business property in those areas, which are breeding grounds for disease. We now have an increased number of suspicious looking people roaming around on our neighborhood streets, around our private homes - a very scary situation!

Since you are the Councilperson for CD7, residents in our community are continuing to request weekly street sweeping signs and restricted street parking signs be posted along the blocks of the above-named streets ASAP. We hope that you will achieve this as our councilperson. We look forward to hearing from you soon regarding these requests.

Sincerely,

[REDACTED]
Resident in CD7
